**SUBJECT:** Explore the Doors

---

City of West St. Paul

**BACKGROUND INFORMATION:**

The Art Park Subcommittee has developed a unique project idea for all our parks. The Explore the Doors idea is a play on “fairy doors”, or small doors attached to trees that are decorated and could include messages or other trinkets inside them. A attached presentation will explain the details of the proposal. There is a small cost to this project, and could easily be expanded to include residents creating their own Doors on private property.

**STAFF RECOMMENDATIONS:**

Discuss the Explore the Doors project and make a recommendation.
